

Greetings

How do you define success? The answer to that question may be more difficult, than it seems at first glance. In this month's newsletter we explore some facets of, and ways to, success in the actuarial work environment.

Success: Boosting Actuarial Working Life

In today's fast-paced and ever-evolving professional landscape, achieving success in the actuarial workplace goes beyond just meeting targets and deadlines. It encompasses fostering a positive environment, nurturing professional relationships, and continuously developing skills. In addition, everyone defines success according to their own values and standards.

Our newsletter is dedicated to providing you with the latest insights, practical tips, and inspiring stories that will empower you to reach your personal goals and celebrate success. As in the actuarial work environment, the latter often is characterized by the successful implementation of a technical solution. Our Competence Partner Cominia outlines an exemplary showcase on success in mathematical core testing. Concerning young actuarial professionals, Emerald Group, which is part of the actupool Competence Partners network as well, has some pioneering insights into the ambitions of the future leaders of the actuarial profession.

Number of the month

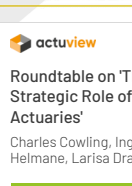

75%

Ambition is clear among young actuaries! According to the Emerald Group's Global Young Talent Survey, 75% of young professionals intend to progress into senior roles. Many are looking to change departments or even sectors to follow their professional aspirations. 29% intend to lead innovation for the industry. Certainly a very interesting development, but also a challenge for future employers.
