

Greetings

This month, we continue our two-part series on Global Disruption by shifting the focus from risks to how professionals are responding with resilience, innovation, and strategic action.

Global Disruption (Part II): Professional Challenges and Solutions

In times of global uncertainty, actuarial expertise is more essential than ever. This month, we continue our series on global disruption, focusing on how actuaries and insurance professionals are responding to shifting frameworks and emerging risks.

We begin with an analysis of DORA, the EU's Digital Operational Resilience Act, now in force. What does this mean for insurers, and how can implementation be both efficient and effective? Experts from Cominia Aktuarielle Services provide practical guidance. We also explore how global developments are reshaping the insurance and capital markets – from regulatory shifts to new investment dynamics.

Finally, don't miss the second YAI Connect session, featuring insights into the Dutch pension reform – one of Europe's largest structural transitions in pensions.

Searching for actuarial talent? Find your perfect fit on actupool!

DORA in Insurance: Lean Implementation, Clear Priorities

With the EU's Digital Operational Resilience Act (DORA) in force since 17 January 2025, a new regulatory era has begun for banks, insurers, and financial service providers. Dea Dubovci and Dr Mischa Pupashenko from Cominia assess the consequences for insurers and provide guidance for action.

Insurance-Linked Securities (ILS)

Ross Watts from Emerald Group observes that Insurance-Linked Securities (ILS) are rapidly gaining momentum, attracting fresh capital and talent for traditional re/insurance roles. Discover how actuaries and underwriters are reshaping the ILS landscape – and why this uncorrelated asset class is more relevant than ever.
