

**Dear ERGO, do  
you have space  
for me to continue  
expanding my skills  
and experience?**

You can depend on that! At ERGO, you will find a wide range of areas to which you can contribute all your expertise and in which your potential will find the freedom you desire. At ERGO, one of the largest insurance groups in Germany and Europe, you will find a dynamic environment and challenging tasks in a wide variety of projects, giving you the opportunity to grow further. Break new ground with us! Our common goal: to offer our clients exactly what they need.

For our location in Düsseldorf we are looking for

## Senior Actuary (m/f/d) Technical Pricing - Retail

### Your tasks

This role offers a unique opportunity to work at ERGO Group level on retail lines actuarial pricing topics. You have the opportunity to work in a young, ambitious team to support the international property&casualty companies of ERGO. We consult and advise on modelling, methods, how to make best use of data. ERGO is one of the biggest European insurance companies with entities in Europe and Asia. ERGO is part of the Munich Re Group, the world's largest reinsurer. In this position, you will:

- Be responsible for leading the development of ERGO's global property/first-party actuarial pricing capability.
- Bring forward traditional pricing topics (actuarial benchmarking, building pricing models, profitability deep dives).
- Support international entities with their pricing, set up models, build tariffs and advise on methods and approaches.
- Prepare and complete pricing analyses, including the development of rates, ultimate loss projections and communication of results.
- Develop pricing topics such as the use of credibility theory, machine learning etc.
- Make sure that pricing best practices and rate benchmarks are shared for traditional products as well as for emerging products such as e.g. car sharing and cyber risk insurance.

### Your profile

- Master's degree in mathematics, in particular statistics/stochastics
- Preferred: you pursue a formal education or you are a member of an internationally recognized actuarial organization
- 3-5 years or more of actuarial pricing experience or risk management experience in (mostly) retail lines environment
- Ability to communicate actuarial topics in non-technical terms
- Open-minded, proactive and organized person, capable of prioritizing workload and team player
- High intercultural competency and willingness to travel internationally
- Fluency in both spoken and written English, German is a nice-to-have, additional languages can be a plus
- Experience in using EMBLEM, SAS, Radar, R and ResQ is an advantage
