

Research & Analytics Actuary (d/f/m)

Unit Global Life/Health Underwriting and Research & Development
– as early as possible – Cologne office – permanent employment

Shape your future with one of the largest reinsurers worldwide

The Gen Re group is one of the largest reinsurance organizations worldwide, providing a wide range of reinsurance solutions for the Life and Property-Casualty Insurance Industry. Gen Re is represented in all major reinsurance markets through a global network in more than 40 locations.

Your role

- Research and modelling to quantify disease and mortality risk
- Development of life and health insurance products for our international primary insurance clients
- Teamwork with other actuaries and data scientists on data modelling and results presentation
- Design and assessment of individual product elements in international and interdisciplinary teams of actuaries, market specialists, underwriting and claims managers
- Analysis of primary insurance and reinsurance portfolios for the further development of calculation bases and pricing tools
- Presenting and discussing work results at internal and external events or in specialist publications

Your profile

- Excellent university degree, preferably in mathematics, statistics, or data science
- Ideally, experience in life or health insurance, reinsurance or consulting sectors
- Practical experience in advanced statistical analysis and ideally with handling large datasets
- Excellent English skills; German and additional language skills a plus

In addition to your professional skills and qualifications, you are able to show a high degree of personal responsibility and commitment. You are agile and attracted by the challenge of consistently getting to grips with new scenarios and issues and can work both in a team and independently. Furthermore, smooth communication skills and team spirit round off your profile.

We offer you

- An international and highly professional working environment in a central location in Cologne
- A pleasant working environment with flat hierarchies and a friendly and cooperative corporate culture
- Attractive benefits, e.g. flexible working hours, home office is possible within the framework of our company agreement on mobile working, company pension scheme, job ticket, jobbike, underground parking, daycare facility for children, canteen and in-house sports activities
